

HOLY INVASION OF PRIVACY BADMAN: WHAT DID I DO TO DESERVE THIS? COMING TO PSP® (PLAYSTATION®PORTABLE) IN JULY 2009

Santa Ana, CA (Apr 7, 2009) – NIS America announced today that the retro classic themed strategy game “Holy Invasion of Privacy Badman: What Did I Do to Deserve This?” will be arriving in North America in July 2009.

As a critically acclaimed strategy game in Japan, Badman will make its presence felt in the west this summer. From its retro-classic art style to its simple, yet intuitive game play, Badman is the anti-trend of games today. However, for players looking for a refreshingly new game experience, Badman offers more than plenty.

About Holy Invasion of Privacy, Badman!

The goal of the game is clean and simple: As the God of Destruction, you must create a dungeon that is difficult and powerful enough to fend off human hero invasions. The dungeon must have a self-sustaining ecosystem, so players must strategically dig and create a dungeon with a balanced food chain. Periodically, human heroes will invade the dungeon in order to bring peace and harmony to the world, but they are your enemies. You must destroy the heroes before they capture the Overlord and take him back to the surface.
