

Disgaea®3 Absence of Justice hits retailers nationwide!

About NIS America

NIS America is a subsidiary of Nippon Ichi Software, Inc., a Japanese company famous for its unique line of strategy RPGs including titles such as Disgaea, Phantom Brave, and Makai Kingdom. In 2003, NIS America was established in Southern California to publish exciting and innovative game titles for North America. NIS America's team members devote themselves to the fans. Our respect for our fans is at the heart of everything we do. As a growing strategy RPG publisher in the U.S., we are committed to continuous improvement and dedication.

About Nippon Ichi Software

Nippon Ichi Software was founded in 1994 in Gifu, Japan, as an entertainment software company. Since then Nippon Ichi Software has grown into an international company focused on creating innovative video game products.

Santa Ana, CA – NIS America announced today that Disgaea®3: Absence of Justice for the PlayStation®3 Computer Entertainment System has shipped to retailers nationwide.

Disgaea 3 incorporates features that made the original a fan favorite, while living up to its “Do anything & try everything” philosophy by making radical improvements. One such change is the new netherworld campus setting which gives the game a demented new twist to the Disgaea world.

About Disgaea®3

Disgaea®3 is a sequel to Disgaea®, a hardcore, turn-based, strategy RPG popular on the PlayStation®2 and PlayStation® Portable. In Disgaea®, character units have a limit to their movement and attack ranges, based on level and weapons equipped. There are other special game factors that let you take advantage of the 3D battle map, many of which are unique to Disgaea®.

One of the many new features to Disgaea®3 is the addition of a **Geo Block**, which creates a 3 dimensional battle instead of the traditional 2D. Much of Disgaea®3 is yet to be unveiled, but rest assured, plenty is due to arrive in the coming months.

Key Features

Geo Block - A cube-shaped terrain-altering object. Players can use it to access and attack enemies where normally they cannot reach.

Geo Panel - A group of stat-altering elemental properties that are placed upon certain parts of the battlefield. When there are one or more colored panels on the battle grid, it means an element can affect that area. The effect can boost or reduce your unit's stats.

Item World - A special randomly-generated battle stage within each and every item you find. By defeating these special battle stages, you are able to strengthen your items.
